Sergeant at Arms

Mallory Walsh

Hey! I'm Mallory Walsh, a junior art major, and have been in APhiO since fall 2015. I decided to run for council because after being in this organization for a while, I've found myself yearning to get more involved. I not only want to have more of a voice in APhiO, but I also want to represent my fellow brothers and be a voice for them. Through being in this position, I would get the opportunity to work closely with my brothers and uphold the wonderful reputation our fraternity and those within it have. I really perceive much value in the council position because I have unfortunately seen how the actions of a few can tarnish the view of many. I want to work hard to protect our wonderful organization from this, and I also want to collaborate to help others share this desire with me. I know that I may be faced with difficult situations, and I might have to make unpopular choices for the sake of the fraternity. However, I have come to terms with this and feel prepared for any difficulties that may come my way. Anyways, I really love APhiO and am excited for this opportunity! 😊

Sergeant at Arms

Answer to question:

Mallory Walsh

With all of the new changes to the By-Laws, how prepared are you to make difficult decisions about different brothers?

I think I am very prepared. I am aware that I need to be unbiased and fair, and I think the changes made to the judicial system will facilitate this even more. I understand that I might be faced with some difficult decisions that might make me the bad guy, but I've come to accept this as part of the position. When it comes down to it, the values and integrity of our organization will be my top priority.

Sergeant at Arms

Libby Wertz

Hi guys, my name is Libby & I'm a junior psych major. I'd like the opportunity to be on the council because it would be a great way to serve the fraternity & because I was a member of the bylaw committee that helped create this new position. After serving as an exec previously, I'd like to hold this leadership position so I could contribute to APhiO in a different way. Not only would I enjoy setting the standards for a council member, but I feel after helping to create the position that I understand its purpose & expectations.

In regards to the question, I think making difficult decisions about brothers is part of every leadership position. The council was created to divide responsibility & decision making so that each brother has a fair & appropriate decision about their issue being presented. Although we are all brothers, there are still rules put in place for the good of the fraternity & I think decisions should be made accordingly.

Sorry I couldn't make it tonight, hope you all had a fabulous holiday :)

Best,
Libby Wertz
