Students are constantly exposed to media influences that are relevant to their lifestyle. Ensuring that we are relevant in our prevention messages has become an art form. In this session, you will learn the art of being relevant in light of all the media, music and world distractions that influence all students on a daily basis. Specific tools will be shared that will help you to use relevant means to present important and lifesaving information to this new generation.

General Session 2

R.E.A.L. Solutions: Relational Aggression and Bullying Prevention

Almost everybody knows that bullying and relational aggression is growing at epidemic proportions in our schools and communities.
