Needs to be open minded, willing to learn new software, have a strong eye for design, knowledge of user interface design and experienced in design. Designer shall be user focused and must understand fundamentals of User Centered Design and beyond.

Responsibilities

- Work closely with Creative Director to develop and design far reaching interactions and experiences through digital signage and other medium.
- Contribute ideas and designs for clients and internal use.
- Provide support to existing customers on preexisting signage systems.

Qualifications

- Strong portfolio showcasing relevant work.
- 2+ Years of relevant experience of in house or agency work.
- Bachelor's degree, preferable in design / art / interaction.
- Experience in both digital and print media.
- Proven ability to work as a part of a team and individually on assigned tasks and operate with a service-oriented mentality.
- Great organizational and time management skills.
- Self-motivated and comfortable imposing deadlines.
- Ability to work on multiple projects with multiple deadlines.
- Familiarity with basic tenets of UI, UX and HCD.
- Ability to take critique, direction, and ownership of one's mistakes.

Skills:

- Adobe Creative Cloud.
- Microsoft Office.
- Work well in a Windows environment.

Wishes (not required)

- Understanding of Video Compression, Editing.
- Flash or HTML 5 Interactive Experience.
