

Data Science to Patient Value (D2V)  
UNIVERSITY OF COLORADO ANSCHUTZ MEDICAL CAMPUS

## Scholars Program: 2017 Fellowship Announcement

The D2V Scholars Program is a two-year program in data science and health system research that provides coursework, mentorship and research opportunities to MD or PhD postdoctoral fellows, and early- or mid-career investigators. The program offers a novel training path that will draw on existing AMC educational resources. Scholars will be able to participate in academic degree programs to expand their knowledge of health informatics and high value health systems delivery. Training will focus on integrating data science, stakeholder engagement, implementation science, and health services research across a spectrum of clinical settings and disciplines as well as leadership education.

For more information, please visit [cuD2V.org](http://cuD2V.org)

**Application Deadline: April 17, 2017**

Please submit all materials to [Kyle.Bishop@ucdenver.edu](mailto:Kyle.Bishop@ucdenver.edu)
