JPMorgan Chase & Co.

Calling all artists, hackers, and engineers!

Are you interested in software engineering?

Supporting our global business means hiring for a diverse set of skills and experiences. Whether you're a machine learning engineer, an artist who likes to write mobile apps, or a cyber security guru, we're looking for unique people with unique skills for some of the most unique jobs on the planet.

Here, you'll have a career that has no limits other than your own ambition and imagination. At our Tech Talk, you'll hear from our current technologists, discover what makes JPMorgan Chase & Co. an incredible place for a truly global career in technology, and learn how you can join our fantastic team.

We have over 6,000 different apps. Will you create the next one?

[Panel Discussion with the Association of Computing Machinery]
When: 7:30 – 8:30 pm – October 11th, 2017
Where: Academic and Research Center Room 102
Who's it for: Anybody interested in a career in software engineering

We look forward to meeting you.

Make Tomorrow Together.
