

## GIS Intern Posting

**EMC Research, Inc.** is a national full-service research firm, specializing in polling, focus groups, data analytics and public opinion research consulting with offices in Columbus, OH; Oakland, CA; Orlando, FL; Portland, OR; Seattle, WA; Irving, TX; and Washington, D.C. Our clients include political campaigns, government agencies, corporations, nonprofits, transportation agencies, health care organizations, and others. EMC Research provides a challenging, fast-paced, team-oriented work environment with great benefits, flexibility and opportunity for growth.

Our Columbus office, located downtown, is looking for a **GIS intern**. The GIS intern will use QGIS to create and merge shapefiles, make client-quality maps, and perform basic analyses. Other tasks may include, but are not limited to, aiding with data cleaning and quality control processes, assisting with production of GIS training materials, and creating web maps.

This position requires a self-motivated, data-focused problem solver who can thrive in a fast-paced environment. EMC Research is an equal opportunity employer, offering competitive salaries and generous benefits, in addition to a casual and fun work environment.

### Necessary Qualifications:

- Current college student, or attended within the past two years
- Knowledge of QGIS, or strong knowledge of ArcGIS with interest in learning QGIS. We ask that candidates be comfortable in performing vector operations in either program, and have a minimum of three courses or nine credit hours of GIS coursework.
- High level of attention to detail
- A basic knowledge of statistics

### Additional (Non-Required) Skills and Experience:

- Knowledge of R and/or Python
- Interest in politics and/or social issues
- Experience with web APIs

This position pays \$10/hour, and we are looking for a candidate who can work at least 10 hours a week during normal business hours. We are interested in candidates who are available in Fall and/or Spring. To apply, please send a resume and a cover letter with the subject line "GIS Intern" to [resume@emcresearch.com](mailto:resume@emcresearch.com).
