

Sustainability Studies Courses Spring Semester 2017

Introduction to Sustainability

**CAS 1415
Course #6180**

**T/Th 12:00-1:30
RTECH 203**

CAS 1415 is the foundational course for the **Sustainability Studies Theme**. Team-taught by professors from the natural and social sciences, the course equips students with the foundational knowledge to explore the social, economic and environmental sustainability challenges and opportunities of the 21st century. *CAS 1415 is open to all undergraduate students, and can be used to fulfill either the Arts & Sciences Social Sciences OR the Natural Sciences requirements.*
