

# How to Be Your Own Best Mentor

You are invited to join us for a three-hour interactive workshop with introspective work, breakout sessions, and group discussions. In the workshop we will discuss how to define and then teach yourself the knowledge and skills you need to be successful in your career or next stage in life.

This workshop is part of a curriculum developed on mentoring by Carolee Bull, Professor and Head in the Department of Plant Pathology and Environmental Microbiology at Penn State University. Dr. Bull has taught this curriculum at national and international universities and and scientific society meetings. She is the recipient of the U.S. Department of Agriculture Secretary's Honor Award for her many contributions to diversity and inclusion in science.
