

# BioBlitz on The Ridges

## 2018

Come explore The Ridges and search for plants, animals, and fungi on Saturday, April 28th! We will spend a few hours outside looking for all the species we can find. You may arrive anytime between 9-11am and will be assigned to a team, then your naturalist leader will lead you to an area where you will spend about 1-1.5 hours searching. Everyone is invited! Families, students, everyone, as all participants will be on teams with a leader that will help you search and learn about the biodiversity in OU's backyard. Please park at the Kennedy Museum and sign in at the registration table by the museum doors. Refreshments and snacks will be available at the registration table. Feel free to bring along binoculars, cameras, magnifying glasses, and field guides to help you search!
