Sustainable Solutions

A CONVERSATION
ABOUT SUSTAINABLE
PEST MANAGEMENT

THURSDAY OCT. 25TH

4:30 - 6 P.M. | Alden Library 319 (Friends of the Library Room)

Worried about the growing use of chemicals in agriculture and pest management? Come learn about how research on the elaborate visual systems of flies leads to sustainable solutions for fly pest management.

Speaker: Dr. Bekka S. Brodie

Dr. Bekka S. Brodie is a Visiting Professor in the Department of Biological Sciences at Ohio University and runs the Insect Ecology and Communication Undergraduate Research lab.
