

BIOS 7970

Seminar in Conservation Biology

Mitigation Strategies to Preserve Biodiversity

2 Credit Hours; Course # 2286; **Online**
Instructors: Don Miles and Viorel Popescu (BIOS)

This graduate seminar will explore extinction processes and strategies for mitigating biodiversity loss in the Anthropocene. The discussion-based seminar will be based on weekly readings of relevant literature, and an exploration of evidence-based conservation practices. This class is one of the required classes for the *Graduate Certificate in Conservation Biology* (<https://www.ohio.edu/cas/biology/graduate/conservation-biology-certificate>).

Organizational Meeting TBA
19 – 22 January
