

# Ohio University Council of Teachers of Mathematics

invites you to

## Mathematics Education: A Meaningful and Fulfilling Professional Life

April 21, 2016

6:30-7:30

MORTON HALL 235

Dr. Kim Yoak, Past President and incoming Executive Director of the Ohio Council of Teachers of Mathematics, will engage participants by sharing experiences related to mathematics education, as well as share her own experiences of the ongoing enjoyment of learning from students and colleagues; the importance of the Standards for Mathematical Practice; and the collegiality, strength, and opportunities within professional organizations.

Dr. Kim Yoak, an independent mathematics specialist, is committed to creating engaging, deep learning experiences in mathematics for teachers, administrators, students, and the public. Her vision is for every student in every classroom to have access to this kind of experience every day – to *lessen students' mathematics anxiety while deepening their understanding*. Dr. Yoak, taught middle school mathematics for 6 years and served as the K-12 Mathematics Consultant for Stow-Munroe Falls City Schools for ten years. She also earned a Ph.D. in Curriculum and Instruction/Mathematics Education from Kent State University. Dr. Yoak is a Past President and incoming Executive Director of the Ohio Council of Teachers of Mathematics. She is active in state and national organizations that support mathematics education, including, the Ohio Mathematics Education Leadership Council, the Ohio Mathematics and Science Coalition, the National Council of Teachers of Mathematics, the Ohio Department of Education, and the National Science Foundation.
