	US Government	government will match, dollar for dollar, any voluntary additional contributions to veterans from institutions whose tuition is more expensive than the maximum educational	The "Yellow Ribbon GI Education Enhancement" option would not be available before Aug. 1, 2009. It requires VA and each school to reach an agreement under which VA will match the amount of fuition and fees waived by the college or university. A school could set the maximum contribution it would provide to each student and limit the number of students who could be covered each year. A school's share would have to be a grant or scholarship, not a loan. A list of schools participating in the program, including details of the agreement, would be made public to allow comparisons.
