

PROMYS

Program in Mathematics for Young Scientists

Professor Glenn Stevens, Director

Intensive Residential Immersion in Mathematics: July 3 – August 13, 2016

Interested in joining 80 mathematically ambitious high school students, 20 counselors, research mentors, faculty, guest lecturers, and visiting alumni for six weeks of joyfully rigorous mathematical exploration?

PROMYS has the following goals:

- To provide an environment for young people that will arouse their curiosity and encourage a deep personal involvement with the creative elements in mathematics
- To foster interaction between the PROMYS community and the larger community of research mathematicians and scientists currently working in academia and industry
- To encourage habits of thought that lead to scientific independence and creativity

Application Deadline: April 1, 2016

- **Application at www.promys.org**

Cost to a Student's Family: \$3,800

- **Full and partial financial aid available**
- Automatic tuition waiver if family income below \$60,000

"I learned a lot, but I also developed the skills of a bold and curious explorer." Polina Belopashentseva

Our alums tell us 2 things at PROMYS had a profound long-term impact on them: *the math and the people.*
